9/1/92

Dear Ms. Keene,

To the best of my knowledge the OSS records were inherited by the CIA and insofar as they can be obtained under the FOIA, you should be able to get copies of those for which no FOIA exemption is claimed.

- know that I got some relating to me from the Coordinator of Information's files, which OSS inherited, from the CIA.

I also got some of my OSS personnal recprds from it.

Some of the records relating to military personnel in particular should be available from that vast St. Louis GSA deposit.

Which did have a serious fire several years ago.

Best wishes,

Harold
